### A PRIVATE'S PRAYER

The Sarge is my shepherd, I shall not want. He maketh me pick up burnt matches. He leadeth me through mud-puddles, he resorteth my step. He guideth me on the course of obstacles for my health's sake. Yes, though I walk through the valleys, I must run up the hills. He anointeth my head with abuse and my cup runneth over. Surely cadence and KP will follow me all the days of my Army life and I shall dwell in the hair of my Sergeant forever.

Motorists in these preferred occupations, whose driving has been affected by the cut, should not apply for a renewal until they have an estimated 30-day supply of gasoline rations left. Then they may apply to plant transportation committees or to their local war price and rationing boards by mail for further gasoline rations.

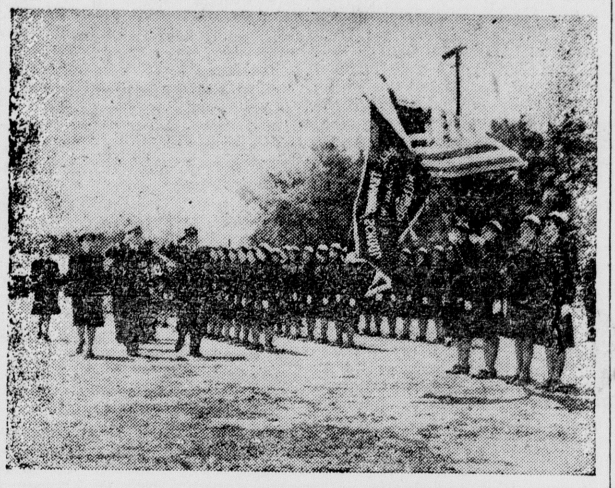
## WAVES-SPARS ARE REAL RECRUITS



During the period of indoctrination training, WAVES live as regular Navy recruits. In "boot" school, the ability to "take it" cheerfully is tested.

WAVES haven't come in merely as an adjunct. They have been organized as a part of the Navy itself. Their jobs represent real military service in winning the war.

That is why indoctrination training—drilling, study, duties—is part of the training program to equip WAVES to do a military job with the fullest military responsibilities.

WAVE shipmates enjoy a brand new experience at study and work. They also share the thrill of donning their blue military uniforms for the first time and passing in review with the colors flying.

When recruit training is completed each and every woman enlisted in the Navy will look and act like a full-fledged seaman They're "in the Navy now."

## SHERIFF GIVES INSTRUCTIONS ON CASHING CHECKS

Sheriff H. P. Gleason announced today that the United States Secret Service at San Francisco again warns persons in this vicinity who receive or cash checks to be watchful for mail theives and forgers, as many allowance and allotment checks are going astray and are being cashed on forged endorsements. Sheriff Gleason and the Secret Service urge that the following rules be observed:

**TO THOSE WHO RECEIVE CHECKS**

1. Never endorse a check until you are actually in the presence of the person who will cash it.
2. Have a good, deep mailbox. Have your name clearly printed on it. KEEP IT LOCKED!
3. Whenever possible, have your mail carrier deliver checks in person rather than to your box.
4. If you change your address, notify the Post Office immediately.
5. Cash your check at the same place each month. CASH IT YOURSELF! — DON'T SEND CHILDREN TO CASH CHECKS! This encourages juvenile delinquency.
6. DO NOT FOLD, PIN OR MUTILATE ALLOTMENT OR ALLOWANCE CHECKS!

**TO THOSE WHO CASH CHECKS**

1. KNOW YOUR ENDORSER!
2. Ask for positive identification. Before you cash a check, ask yourself this question—"If this check is returned, can I find the person who gave it to me?"
3. NEVER CASH A CHECK ALREADY ENDORSED. Have it endorsed again in your presence.
4. Require that all employees who cash checks shall initial them.

Their son, Robert, was pianist in some of the largest cafes in early San Francisco, later coming to Irvington and joining the staff of the high school at Centerville. He was the first to retire under the non-certified employees' retirement act in July, 1942.

## SUTTON NAMED ACTING HEAD OF RED CROSS

### WOMENS CLUBS "HIT THE BALL" DOING WAR WORK

The following members of the local Country Club attended the monthly meeting of the Alameda District of Federal Women's clubs at Danville, on Wednesday, November 10: Mrs. E. H. Hirsch, local president, Mrs. Wm. Trenouth, Mrs. C. E. Martenstein, who is the District Recording Secretary, and Mrs. Roland Bendel, the District Chairman of Agriculture.

The main feature of the meeting was a resume' of the immeasurable amount of War Service which is being rendered throughout the State by Federated Club women. Mrs. J. H. Comby, State Chairman of War Service, told an amazing story of work being done by women from Crescent City to Needles, in every possible branch of War Service. If ever Women's Clubs warranted their existence, they do today, having thrown the whole weight of their organization, clubhouse facilities and treasury into the job of winning the war, and helping the Services who are trying to do the same thing.

A resolution unalterably opposing farm subsidies, and the whole theory of subsidies to private industries, was presented by Mrs. Bendel as Agriculture Chairman, and unanimously adopted by the Federation. It called for the granting of food prices to the farmer which would put him on a par with other American industries under the little Steel Formula, and the prevention of further wages and material costs which would again unbalance the economic status of the Farmer. The resolution will go on the State Board of Federated Women's clubs for further adoption.

# I CAME AGAIN

Editor's Note: The following article, referring to the activities of the Country Club of Washington Township has been sent to the paper for publication.

I came again to the little nut-brown club house nestling among the trees, its vine-covered porch aglow with autumn colors. All seemed the same as the last time I was there, many, many moons ago. The interior had the same restful charming atmosphere of good taste and harmony. There were new faces to be sure. but there wre also many known of yore. A new president presided with quiet dignity, and tasteful flowers added their touch of beauty to the room, but there was a difference.

Instead of the boastful "Lights on in America" program which made it seem that this group of women were rabid isolationists with no concern for the welfare of others; naught but their own comfort, no sympathy for the war-torn old world, but secure in the wrap of their two-ocean protection, could boast of their lights. Boast of their lights while the old world tottered and groped in darkness under the terrific hammering of those awful exploding bombs. Instead of this what did we find?

Time had passed and with it this boastful attitude. All was changed, every part of the program spoke eloquently of the intense patriotism of these same women, active in all branches of service to their country. They were busy doing their share of furnishing hospitality and home cheer to lonesome soldier boys away from home maybe for the first time. They were contributing to the Red Cross. to the blood bank, to the war chest, to the veteran's hospital, to the boy scouts, etc. Hardly any worthy activity save had felt the benefit of their active support. The greatest change, however, was the long list of war mothers, mothers now proud to be able to say that they had a son, or a daughter, or both, in the service of their country.

The speaker of the day was a charming woman who had dedicated herself to the service of her country, she was what we call a "WAVE." She made it crystal clear that the navy needed more women to give themselves to this great service. The war which has not as yet come directly to our shores, but has touched outposts and thus touched us, the war that flames all over the world today and bids fair to wipe out our present civilization unless we can stop it, needs more women workers in the service. Many more women to do the things that women can do and thus free a man, or men for combat duty. Combat duty all over the world, not just in one little spot as it was many, many moons ago when the "Lights on in America" program was given. Now it is everywhere, and our boys fight in China, in India, in the great Pacific with its multitudinous islands which serve to protect our own shores, in the Mediterranean areas, in Italy, and many other places. Our great Allies fight bravely with us, and we all fight not just for the protection of our own homes, our own children, our own way of life and liberty, our own form of government, but for all the world. We have learned that after all, we are our brother's keeper, and what thratens one, threatens all. And I was glad that I had come again.

Julia says— You Can Still Serve Salads

CRISP November days call for crisp and tasty salads! And they're so easy to make—just a few fresh vegetables and a bit of ingenuity, and you have a salad that perks up the whole meal and makes it rich in vitamins. For example:

**Raw Vegetable Symphony**
Mix together 1 cup each ground, shredded or chopped raw cauliflower, celery and carrots with 1 cup ground nut meats. Salt to taste. Mold by packing firmly in an individual custard cup. Turn out immediately on crisp lettuce leaves. Garnish with your favorite salad dressing to which 2 tbsps. lemon juice have been added and with ground nut meats or stuffed green olives. Serves 6-8.

**Stuffed Cabbage Crown**
For a buffet supper, hollow firm cabbage head with sharp pointed knife. Cut so edge is pointed. Fill cabbage shell with mixture of 1½ cups each of shredded cabbage, carrots, unpeeled red apples and a few raisins. Season to taste with salt and mix with your favorite salad dressing.

**Mock Crab Salad**
Pare and shred 2 cups raw parsnips. Add 2 tbsps. lemon juice and enough salad dressing to coat, *immediately*, so parsnips won't discolor. Add 1 cup diced celery, 1 onion finely minced and ¼ cup sliced stuffed or ripe olives. Salt to taste. Mix with dressing. Serve on lettuce cup with sliced hard-cooked egg garnish.

**Wilted Lettuce**
To bowl of torn lettuce or thinly sliced cabbage a... ...adually add hot mixtu... ...of and 4 slices finely cut and fried bacon (or 2 tbsps. drippings alone), ¼ cup mild or diluted vinegar, 1 tsp. sugar, ½ tsp. dry mustard and salt and pepper to taste.

**Golden Fruit Salad**
Arrange on lettuce a combination of two sliced unpeeled red apples and sections of 1 grapefruit and 2 oranges. Top with salad dressing. Sprinkle with chopped nuts.

**French Orange Salad**
Arrange thin slices of dry onion between thick slices of orange, sandwich-fashion. Serve on lettuce. Top with French dressing.

**Waldorf Salad**
Mix 1 cup each sliced celery and diced tart apples. Add few broken nut meats and raisins. Mix with mayonnaise. Blend thoroughly. Serve on crisp lettuce leaves. Serves 4.

## TULELAKE

Americans, as a whole, will have a better conception of the Japanese problem in California as a result of the Tulelake incidents. They will also, it is to be hoped, have a better conception of California and Californians.

Californians have lived with Japanese and know their nature. To them, the Tulelake outbreaks came as no surprise. Until the disloyal subjects of the Son of Heaven are returned to their homelands, the nation can expect more of the same.

News pictures of the Tulelake camp may come as something of a shock to people who thing of California only in terms of redwoods and rain. The barren plains and bald hills surrounding the site have a more Sahara-like look, but Californians learn to like them, too.

## AFTER 25 YEARS, ARMISTICE DAY PRESENTS SAD PICTURE

(The Hayward Journal)

Today is Armistice Day but with the exception of Italy's participation in the war, there is no armistice. Germany, pushed rapidly out of Russia has still to be reckoned with but her collapse is inevitable. No amount of intuition can change that fact, but still, on this November 11, 1943, there is no Armistice anywhere. Tojo and his men are no longer braggarts, but they are solidly entrenched in too many places to make predictions on their ultimate defeat.

Even the memory of the Armistice which we were to have celebrated today, 25 years after, is almost a myth. Humanity saved Germany 25 years ago. Since then Germany has amply demonstrated it has no humanity in its heart. How then can humanity be extended to the rulers of a nation that knows no mercy. Nothing but utter defeat will do this time, nothing but complete annihilation this time will serve the purposes of humanity.

It is not a nice picture to contemplate on this Armistice Day but it seems to be the only viewpoint left.

## HONORING EZRA DECOTO

The Hayward Journal published the following testimonial to EZRA DECOTO, whom Southern Alameda County claims as her own, has reached a high point in the legal profession. He was recently named a Superior Judge of this county to which no dissent has been noted. Decoto comes from Decoto and an interesting sidelight on the recent appointment lies in the fact the man whose place he takes, Judge Lincoln S. Church, was almost a fellow townsman, coming from Alvarado. And the late Peter J. Crosby, another noted Superior Judge, hailed from Centerville. The southern end of the county appears to have made some excellent contributions to the legal profession and the judiciary. The Hayward Lions Club will honor Judge Decoto as their guest on November 24.

## HOME CASUALTIES EXCEED WAR TOLL

Life in America is eight times more dangerous than service on the battlefields, according to Edward Davenport, coordinator of the National Safety Council.

Figures released by him show that eight deaths by accident have occurred on the home front for every American death on the battlefield.

**Since Pearl Harbor, accidental deaths have totaled 161,000, of which 90,000 were industrial workers. Most of the deaths were due to negligence, particularly on the part of workers newly introduced to heavy war industry.**

In the early stages of the industrial conversion from peace to war, such negligence was understandable, if not excusable. There is less excuse now. Under the auspices of the National Safety Council, an educational program has been under way for some time in every mine, mill and factory to eliminate careless working habits. Millions of workers have been at their war jobs long enough now to learn the fundamentals of safety. Unless this country is stupidly careless, the results of the far reaching program should show up soon in greatly reduced accident figures.

## NEW TROOP SHIPS

Troop ships in the present World War are far different from those of the first World War. Twenty-six years ago every old tub that could be pressed into service was used to transport troops. Today, ships are specially constructed for the purpose. Many of the old timers were cattle-boats — and smelled so bad that even the U-boats kept their distance. At least, that's the way Veterans of the World War 1 remember them.

**The newest troop ships, according to information from the Navy Department, are floating cities—cities without windows. They have no portholes to be blacked out, but are well ventilated by air conditioning. Each hull contains everything an Army needs, from a mechanical cow that turns powdered milk into beverage, to machinery for consuming garbage so that no trail is left for enemy submarines to follow.**

Thus science, which has made warfare increasingly terrible, also has made some aspects of it more bearable. We understand, however, that nobody has yet devised a system to supplant the old custom of sleeping the battle-bound soldiers four bunks deep. But soldier boys of today are benefiting by other modern ideas of ship construction. Their strength is reserved for combatting the enemy, not worn down by the rigors of ocean crossings of unnecessary hardship and discomfort.

## GIVE GENEROUSLY TO THE WAR CHEST

The Washington Township War Chest campaign seeks support for services to America's fighting men, United Nations relief agencies, and home-front welfare organizations. The local goal is $17,500; the sum sought throughout the state is $18,000,000; nationally a total of $250,000,000 is needed. Seventeen national war-related causes included in local united campaigns throughout the nation are: USO, United Seamen's Service, War Prisoners Aid, Russian War Relief, United China Relief, British War Relief Society, Greek War Relief Association, Polish War Relief, French Relief Fund, United Yugoslav Relief Fund, Belgian War Relief Society, United Czechoslovak Relief Fund, Queen Wilhelmina Fund, Norwegian Relief, Friends of Luxembourg, Refugee Relief Trustees, and the U. S. Committee for the Care of European Children.

**HORSEPOWER**
**TO BEAT AXIS ENSLAVED LABOR**

If electricity flowing to war-busy California communities and military establishments could be seen and heard, the air over California would be awhir with the rush of winged horsepower reporting for duty.

War has brought a heavy demand for electricity. In a thousand and one jobs, electric horsepower is aiding in the victorious achievements in war production to beat the conquered and enslaved labor of Germany and Japan. In amount, this company is supplying power for war work equal to that needed to serve a city of 1,500,000 persons.

Meeting this war demand for electricity has taken planning ahead in engineering and purchasing and building. But what counts NOW are the men who have stayed loyally on the job of delivering this electricity. They are the power plant operators, the lake tenders, the linemen and the repairmen. They are our experienced old timers—2300 of our younger employees have gone to war.

From such a coordination of technical "know how" comes the effective delivery of electricity to military camps and war industries in dependable, unfailing supply.

### FOOD STAMPS VALID

Here is the correct schedule of currently valid stamps for processed foods: Blue stamps X, Y, and Z in War Book Two, good until November 20, and green stamps A, B, and C in War Book Four, which became valid on November 1, good until December 20.

### LICENSE FEES FOR NEXT YEAR TO BE POSTED

Charts showing the amounts due in motor vehicle license tax and registration fees for 1944 on all types and models of motor vehicles will be placed in Washington Township gasoline service stations about December 1st.

While the fees due in 1944 will be exactly the same as were paid for license renewal this year, vehicle owners of Washington Township who do not remember how much they paid this year may ascertain the amounts they will have to pay for 1944 registration by consulting the charts.

Gordon H. Garland, Director of the Department of Motor Vehicles, announces this arrangement has been made with the California Petroleum Industry Committee in order to eliminate the expense of mailing special notifications of amounts due to the nearly 3,000,000 vehicle owners of the State. Despite a sharp increase in values of used vehicles, a legislative act sponsored by the Department "freezes" the vehicle licens fees for 1944 and 1945 at the 1943 level.

A 7 pound, 11 ounce son named Glenn Enos was born on November 6 in the Hayward Hospital to Mr. and Mrs. Joseph A. Neves of Centerville.
